

略 語

ACM	Association for Computing Machinery
AC	Actual Cost
AM	Agreement Management
ANSI	American National Standard Institute
ARD	Acquisition Requirements Development
AT&T	American Telephone and Telegram
ATM	Acquisition Technical Management
AVAL	Acquisition Validation
AVER	Acquisition Verification
BS	British Standard
BSD	Berkley Software Distribution
BSI	British Standard Institute
CACM	Communication of ACM
CAR	Casual Analysis and Resolution
CC2001	Computer Curricula 2001
CC2005	Computer Curricula 2005
CCSF	Common Carrier Skill Framework
CISA	Certified Information System Auditor
CM	Configuration Management
CMM	Capability Maturity Model
CMMI	Capability Maturity Model Integration
CMU	Carnegie Melon University
COCOMO	constructive cost model

CORBA	Common Object Request Broker Architecture
CPD	Continuing Professional Development
CPE	Continuing Professional Education
CPI	Cost Performance Index
CPM	Counting Practice Manual／Critical Path Method
CSDP	Certified Software Development Professional
CV	Cost Variance
DAR	Decision Analysis and Resolution
DEC	Digital Equipment Corporation
DFD	Data Flow Diagram
DOA	Data Oriented Approach
DoD	Department of Defense
EA	Enterprise Architecture
EAC	Estimate At Completion
EIA	Electric Industries Alliance
ERD	Entity Relationship Diagram
ERP	Enterprise Resource Planning
ETC	Estimate To Completion
ETSS	Embedded Systems Skill standards
EV	Earned Value
EVM	Earned Value Management
FSF	Free Software Foundation
GNU	GNU is Not UNIX
GPL	GNU General Public License

GSWE2009	Graduate Software Engineering 2009
HDLC	High-level Data Link Control
iCD	i Competency Dictionary
ICTTI	Information and Communication Technology Training Institute
IEC	International Electrotechnical Commission
IEEE	Institute of Electric and Electronic Engineers
IETF	Internet Engineering Task Force
IFPUG	International Function Point Users Group
IoT	Internet of Things
IPEA	International Professional Engineer Agreement
IPM	Integrated Project management
ISBSG	International Software Benchmark Standards Group
ISO	International Organization for Standardization
ISTQB	International Software Testing Qualification Board
ITIL	Information Technology Infrastructure Library
ITSS	IT Skill Standards
ITU-TS	International Telecommunication Union - Telecommunication Standardization sector
JFPUG	Japan Function Point Users Group
JIS	Japanese Industrial Standard
JSTQB	Japan Software Testing Qualifications Board
KPA	Key Process Area
LAN	Local Area Network
MA	Measurement and Analysis
MIPS	Million Instructions Per Second

MTBF	Mean Time Between Failure
Multics	Multiplexed Information and Computing System
OMG	Object Management Group
OOPSLA	Object-Oriented Programming, Systems, Languages, and Applications
OPD	Organizational Process Definition
OPF	Organizational Process Focus
OPM	Organizational Performance Management
OPP	Organizational Process Performance
OSI	Open Systems Interconnection
OT	Organizational Training
PARC	Palo Alto Research Center
PI	Product Integration
PMBOK	Project Management Body of Knowledge
PMC	Project Monitoring and Control
PMI	Project Manager Institute
PMP	Project Manager Professional
POA	Process Oriented Approach
PP	Project Planning
PPQA	Product and Process Quality Assurance
PSP	Personal Software Process
PV	Planned Value
QCD	Quality、Cost、 Delivery
QPM	Quantitative Project Management
RAD	Rapid Application Development

RD	Requirements Development
RE	Requirement Engineering
REBOK	Requirement Engineering Body of Knowledge
REQM	Requirements Management
RSKM	Risk Management
RUP	Rational Unified Process
SAM	Supplier Agreement Management
SAS	System and Application Specialties
SCB	Software Configuration Board
SDLC	System Data Link Control
SEI	Software Engineering Institute
SEPG	Software Engineering Process Group
SPI	Schedule Performance Index
SPICE	Software Process Improvement and Capability dEtermination
SRS	Software Requirement Specification
SSAD	Solicitation and Supplier Agreement Development
STD	State Transit Diagram
SV	Schedule Variance
SW-CMM	Software Capability Maturity Model
SWEBOK	Software Engineering Body of Knowledge
TCP/IP	Transmission Control Protocol/Internet Protocol
TR	Technical Report
TS	Technical Solution
TSP	Team Software Process

UCSY	University of Computer Studies, Yangon
UISS	Users' Information Systems Skill Standards
UML	Unified Modeling Language
Unix	Uniplexed Information and Computing System
UP	Unified Process
USDM	Universal Specification Describing Manner
USL	Unix System Laboratory
VAL	Validation
VDM	Vienna Development Method
VER	Verification
WBS	Work Breakdown Structure
XP	Extreme Programming
